DAMANA[®]

Respecting and reproducing the generosity of nature.

Simplicity, authenticity and joy have been at the heart of what DAMANA[®] does best from the very beginning.

Drawing on these core values, DAMANA[®] Earth and Sun was born in 2003. Since then, our collection has expanded to include DAMANA[®] Néroli, DAMANA[®] Organic Bath Line and Apothicals by DAMANA[®].

To these lines are associated richness and authenticity of ingredients of natural and artisanal origin, and the desire to meet the expectations of your guests, in terms of well-being, efficiency and ecology. Our unwavering commitment to our founding values and high standards have led us to develop luxurious products that are as natural and as eco-friendly as possible.

CARE ABOUT eARTH

DAMANA[®] whole-heartedly embraces the Care About Earth program.

The collection is working to reduce its environmental impact by giving natural-origin ingredients a prominent place in its formulas. In the spirit of continuous reinvention, we've selected responsible alternatives to petrochemical-sourced plastic for our packaging.

In a bid to help protect natural resources such as water, DAMANA[®] Earth and Sun now offers a range of solid cosmetic products.

These solids, not only significantly cut back on the water needed for manufacturing, they are 100% plastic-free thanks to the FSC-certified cardboard packaging.

DAMANA[®]

NEROLI

DAMANA[®] NEROLI brings a delicate floral touch to the DAMANA[®] family, offering products with soothing, natural extracts of orange flower, the true essence of sunshine.

Bitter orange

Citrus aurantium amara

Growing primarily around the Mediterranean basin, the bitter orange tree "Citrus aurantium amara" is a small fruit tree with pure white flowers, from which precious orange blossom water is extracted. Renowned for millennia for its delicate perfume, comforting, soothing and refreshing properties, it was the Princess of Neroli, a city near Rome, who fashioned the bitter orange essence in the 17th century as a perfume for her gloves and bath and in whose name it is known today.
